About Australian Catholic University

An ACU education is grounded in the Catholic understanding of faith and reason working together in the pursuit of knowledge, promotion of human dignity, and advancement of the common good.

We aim to transform lives and communities. Students are challenged to look beyond the classroom, solve real-world problems, develop their own search for meaning and cultivate strong professional ethics. They are invited to stand up for people in need and causes that matter.

Opportunities for personal and professional growth are critical to ACU. This is a university of service – so much so that it is built into the curricula. All ACU courses offer work placements, internships or volunteering opportunities.

High-impact research – with social, cultural and economic benefits – is core to our institution. Our research and enterprise activities develop innovative solutions to issues impacting human dignity and the common good. Through ethically informed research we deliver positive change across ACU, industry, community and government.

We foster academic collaboration and engage with local and international partners to enable the exchange of knowledge and skills and develop dynamic educational and research initiatives. We build healthy social partnerships, assisting communities in actively shaping initiatives that directly impact them.

ACU is a university for everyone. Like all Catholic institutions, the university is inclusive and supportive of everyone, every day – regardless of their faith, tradition or circumstance.

ACU is a young university making a significant impact. Ranked in the top two per cent of universities worldwide* and in the top 10 Catholic universities**, we're also a leader in employability with 95 per cent of our graduates employed***. The university has seven campuses around Australia, a campus in Rome, Italy, and an online campus – ACU Online.
